April 7, 2020

Ref: ECM Mexico operation during COVID-19 quarantine.

To all our customers, suppliers, employees and business associates:

Please be informed that Electri-Cord S de R.L. de C.V. has been designated as an essential manufacturing business because it is part of the supply chain of the Telecommunications and Medical Product Markets that have been classified in the same way by the Mexico Federal Government through the agreements published in the official Gazette of the federation with dates March 31 and April 6 both on 2020.

Due to the above, Electri-Cord will remain open with normal operations at the plant located in Tlaquepaque, Jalisco, which will in some cases be with office staff or other associates that can achieve business continuity by working remotely. Electri-Cord continues to be disciplined in its enforcement of all prevention and hygiene measures, strictly complying and executing the official indications of the Mexico Ministry of Health.

Electri-Cord reiterates its commitment to our customers, employees and society in general to give all the support that is within our reach in this unfortunate worldwide crisis caused by COVID-19.

Sincerely,

A handwritten signature in black ink, appearing to read 'Hector Ramon Giron', written in a cursive style.

Hector Ramon Giron
